

PROFESSIONAL SUMMARY

Analytical professional with experience in data-driven decision making, process optimization, and cloud infrastructure design. Skilled in leveraging AWS and data tools to build scalable, highly available, and resilient systems. Currently pursuing AWS Solutions Architect certification with hands-on experience deploying multi-AZ architectures using core AWS services.

SKILLS & TECHNOLOGY

- | | |
|---|--|
| <ul style="list-style-type: none">◆ Cloud & Systems: AWS (EC2, S3, VPC, IAM, RDS), Auto Scaling, Elastic Load Balancing, CloudWatch, SNS, Well-Architected Framework (in progress)◆ Technical Skills: Troubleshooting, Process Optimization, Root Cause Analysis | <ul style="list-style-type: none">◆ Data & Analytics: Excel (Pivot Tables, VLOOKUP), Google Sheets, Data Visualization, Basic SQL◆ Collaboration: Cross-functional communication, technical documentation, agile exposure |
|---|--|

PROJECTS

AWS Highly Available Web Architecture (Console Deployment)

- ◆ Designed and deployed a highly available AWS architecture using EC2, Application Load Balancer, and Auto Scaling Groups across multiple Availability Zones to support fault-tolerant and scalable infrastructure
- ◆ Configured VPC networking, subnets, route tables, and security groups to establish a secure and scalable network architecture
- ◆ Automatically scales EC2 instances to maintain ~50% average CPU utilization.
- ◆ Set up CloudWatch alarms based on CPU utilization and instance health to trigger automated scaling actions via Auto Scaling Groups
- ◆ Used EC2 user data scripts to display Availability Zone-aware responses (“Hello Juliet from AZ-A/B”), demonstrating distributed deployment behavior
- ◆ Integrated CloudWatch monitoring and SNS notifications for system observability and scaling event alerts
- ◆ Validated fault tolerance by simulating an unhealthy target state and confirming ALB health check-driven failover behavior

Infrastructure as Code (IaC) – AWS CloudFormation Deployment

- ◆ Rebuilt full AWS architecture using CloudFormation to automate provisioning of EC2, Application Load Balancer, Target Groups, Auto Scaling Groups, and VPC resources
- ◆ Implemented multi-AZ, load-balanced, auto-scaling infrastructure using Infrastructure as Code (IaC) to enable repeatable and consistent deployments
- ◆ Configured CloudWatch alarms and SNS notifications within CloudFormation for automated monitoring and alerting
- ◆ Debugged and resolved stack deployment failures related to resource dependencies and networking configurations
- ◆ Strengthened understanding of AWS resource orchestration, dependency management, and Infrastructure-as-Code best practices

RELEVANT EXPERIENCE

❖ Professional Development

AWS Solutions Architect Associate Certification (ongoing)

Expected June 2026

- ◆ Studying AWS Solutions Architect – Associate concepts including EC2, S3, VPC, IAM, and RDS with focus on designing secure, highly available, cost-efficient, and fault-tolerant cloud architectures
- ◆ Applying AWS architectural patterns through hands-on practice with Auto Scaling, Elastic Load Balancing, multi-AZ deployments, and resilience design using the AWS Well-Architected Framework

Rutgers Graduate Program

Aug 2019-May2020

- ◆ Published analytic in the Rutgers education database on “Students’ Use of Mathematical Language as They Discover Formulas for Surface Area and Volume Using Cuisenaire Rods.”
- ◆ Conducted research on optimizing student learning outcomes using performance data and curriculum effectiveness.
- ◆ Participated in seminars on equity in education, data-informed instruction, and assessment design.

❖ **Work Experience**

Assistant Center Director

June 2025- October 2025

- ◆ Rapidly adapted to internal systems and workflows to onboard and coach team members, improving operational consistency and performance
- ◆ Identified and resolved operational bottlenecks, maintaining reliable service delivery and improving efficiency
- ◆ Leveraged performance metrics and reporting data to adjust workflows and improve outcomes
- ◆ Led recurring team syncs to track KPIs, align priorities, and ensure execution against goals
- ◆ Coordinated outreach initiatives with local schools, increasing program visibility and adoption
- ◆ Managed digital communication channels and content systems to ensure consistent information delivery

Math Teacher, Berkeley Heights School District

Aug 2022- Jun 2024

Teacher of Pre-Algebra Honors, Algebra Honors, Connected Math, Algebra 2, & Financial Literacy

- ◆ Rapidly adapted to data tracking systems to analyze performance datasets for 76 users, identifying trends and optimizing outcome strategies
- ◆ Built and maintained Excel-based dashboards to monitor real-time performance metrics and support data-driven decisions
- ◆ Implemented feedback loops and targeted interventions based on data analysis, improving outcomes by 20%
- ◆ Collaborated on improving reporting workflows and data tracking processes across teams
- ◆ Maintained structured monitoring systems achieving 99% benchmark attainment through continuous iteration

High School Math Teacher, Pascack Valley High School

Aug 2020-Jun 2022

Teacher of Algebra I, Geometry, Statistics & Probability

- ◆ Quickly ramped up on performance tracking systems to analyze data and optimize instructional strategies
- ◆ Designed and maintained tracking systems for performance monitoring, enabling real-time visibility into key metrics
- ◆ Collaborated with staff to improve reporting workflows and operational processes
- ◆ Applied continuous feedback and monitoring loops to improve outcomes, achieving 99% benchmark attainment
- ◆ Developed structured documentation and reporting standards to ensure consistency in data tracking

EDUCATION & CERTIFICATIONS

Ed.M. Mathematics Education (K-12)	GPA 4.0	Rutgers University, New Brunswick, NJ	May 2020
Honors: Dean's list			
B.A. Mathematics	GPA 3.4	Rutgers University, New Brunswick, NJ	May 2019
Honors: Nancy Higginson Dorr Award			
A.S Mathematics	GPA 3.7	MCCC, West Windsor, NJ	Dec 2016
Honors: Phi Theta Kappa Honors Society			
Certification: Teacher of Mathematics		New Jersey	May 2020
